

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Previously Presented) An image product assembly,
comprising:
 a dual sided album leaf having a first ply layer and a second ply layer, said first and second ply layers each having an outer surface and an inner surface, said first and second ply layers are secured together so as to form a pocket there between, said outer surface of said first and/or second ply layer having a plurality of images formed thereon; and
 an insert having a size and configuration such that it can be placed within said pocket, said insert having information thereon that relates to said plurality of images, said information on said insert is located in a position on said insert such that it can be readily identified with respect to which of said plurality of images it is associated.
2. (Cancelled).
3. (Previously Presented) An image product assembly
according to claim 2, wherein said information is correlated with respect to its associated image by providing a size of said associated image at a reduced size having reduced visual characteristics.
4. (Previously Presented) An image product assembly
according to claim 1, wherein said outer surface of said first ply layer and second ply layer each have a plurality of images and said insert having information with respect to said images on said first and second surfaces, said information being provided on said insert.
5. (Original) An image product assembly according to claim 1,
wherein said insert is provided with a retaining member that prevents the insert from being pulled completely out of said pocket.

6. (Previously Presented) An image product assembly according to claim 5, wherein said retaining member comprises a pair of restraining tabs disposed at opposite ends of said insert, the restraining tabs being designed to be stopped by a retaining section in said leaf.

7. (Original) An image product assembly according to claim 1 wherein insert is folded such that when it is placed within said pocket it causes said insert to be retained within said pocket.

8. (Original) An image product assembly according to claim 1, wherein said first and second ply layers each comprise four sides and said first and second ply layers are secured together along three of said four sides.

9. (Original) An image product assembly according to claim 8, wherein an adhesive is used to secure said first and second ply layers together.

10. (Original) An image product assembly according to claim 8, wherein a generally u-shaped member is positioned along three of said four sides is provided for securing said first and second ply layers together.

11. (Original) An image product assembly according to claim 10, wherein an adhesive is applied to the inner surface of said first and second ply layers.

12. (Original) An image product assembly according to claim 1, wherein said first and second ply layers are formed by folding a single sheet.

13. (Cancelled)

14. (Cancelled)

15. (Cancelled)

16. (Cancelled)

17. (Cancelled)

18. (Cancelled)

19. (Cancelled)

20. (Cancelled)

21. (Cancelled)

22. (Cancelled)

23. (Cancelled)

24. (Cancelled)

25. (Cancelled).

26. (Cancelled)

27. (Cancelled)

28. (Cancelled)

29. (Cancelled)

30. (Cancelled)

31. (Cancelled)

32. (Original) An image product assembly according to claim 1 wherein said information is correlated with respect to associated image by providing an outline copy of set associated image on said insert.

33. (Original) An image product assembly according claim 1 wherein said insert includes a low resolution or intensity image copy of the original image provided on said first ply layer or second ply layer.
